

## PRELIMINARY RESULTS FROM GLRI ACTION PLAN III MEASURES OF PROGRESS

Results achieved for the 23 Measures of Progress in the GLRI Action Plan III as of February 28, 2022. Fourteen measures have annual targets; the rest track progress towards long-term goals. EPA provides detailed information in annual Reports to Congress.

Shaded cells display results achieved/targets. Targets met are shown in plain text in green-shaded cells. Targets not met are in italics in red-shaded cells. Cells without numerators and denominators show results for measures that do not have targets.

<sup>1</sup> Baselines for cumulative measures identify results through FY 2018 or, for Measure 3.1.1, FY 2017. Baselines for non-cumulative measures identify regularly expected annual results. The measure 3.1.2 baseline and universe now exclude acreage outside Great Lakes priority watersheds.

<sup>2</sup> The FY19 column includes results and, if applicable, targets from Action Plan II measures and for other cumulative Action Plan III measures.

<sup>3</sup> The FY20 column identifies targets and results through September 30, 2021 for the GLRI Action Plan III measures.

<sup>4</sup> The FY21 column includes targets and results for AOC measures (1.1.1, 1.1.2, and 1.1.3) through September 30, 2021. Results for other measures will be reported after they have been compiled.

<sup>5</sup> The FY22 column includes targets for AOC measures (1.1.1, 1.1.2, and 1.1.3) and results through February 28, 2022 - additional FY22 results for these measures may still be achieved. Results for other measures will be reported after the fiscal year ends.
